Is sign electrical? Yes _____ No _____ If yes, U. L. listing/ID# _____

All portable electrical signs must be GFCI protected, and all wiring must be properly grounded.

Sign to be removed _____ days from date issued. Last date portable sign at this location _____

Filling out this application for a permit does not allow applicant to engage in such permit until the building division issues a permit. All signs must conform to the standard building code, DOT regulations, city ordinances and procedural policies. All signs must be inspected.

Where a changeable copy sign (i. e. reader board) exists, portable signs are prohibited. Flashing lights are not permitted. Bulbs may not exceed 75 watts. After the sign is positioned the Chief of Police may order the lights turned off if he determines they are a traffic hazard.

This sign must be removed from property on or before the date indicated. This permit expires immediately upon removal of the sign for any reason from its originally approved location.

If not in compliance, sign will be towed away by the City and held at City facilities until a twenty five (\$25.00) dollar charge has been paid for its release. Unpermitted sign shall be subject to a double permitting fee.

Signature of applicant: _____

Approved by zoning _____ Date _____
